Patent Pending

Light up memorials with our U.S. engineered and manufactured *Light of Hope*® luminaires, which offer you

- **INNOVATION:** state-of-the-art design with cutting-edge solar energy storage and LED technology engineered specifically for the memorialization industry with attention to enduring quality and value, and with a 10-year unlimited warranty.
- **DIFFERENTIATION:** The ability to integrate illumination into the design and beauty of your monuments, markers, and cremation memorial environments, giving you the potential to increase your market share.
- **HOPE:** Comforting families while honoring and embracing the memories of loved ones, not only by wrapping them in the warmth of light but also by enabling them to use a unique QR code to create and share web-based enduring tributes to the lives of lived ones which transcend geographic and generational boundaries.
